## EXPERIENCE

### Frontend Web Development —

December 2022 - PRESENT

- Strong foundational knowledge with HTML5, CSS and Javascript which enables me to quickly learn new frameworks, libraries and languages.
- Built projects using the core technologies listed below as well as experimented with more tech stacks. Strong web standard knowledge to ensure highly optimized code.
- Ability to build out pixel perfect high quality websites from given designs, ensure perfect interactivity and works on all devices.

### CVL Construction, Qheberha — Site Foreman

January 2022 - November 2022

- Led and managed diverse construction projects, including building a boundary wall around DF Malherbe School, housing projects, and renovations at dealerships.
- Demonstrated proficiency in project management, team leadership, and attention to detail.
- Took initiative to help contractors improve work methods which enabled them to increase productivity and complete projects faster.

### Cohen Property Development, Qheberha — Junior Site Foreman

November 2020 - November 2021

- Played a pivotal role in the building of 24 houses, the expansion of a block of 14 flatlets and luxury housing development.
- Led an average of 50+ contractors daily, overseeing work quality, adherence to safety and on time completion.
- Managed workload scheduling, material planning, site preparations, sign-off inspections and more.
